

The main radio station I listen to is K-LOVE. As a resident of my community, this radio station offers 24 hour uplifting programming which helps me keep a positive mental attitude, which is good for everyone. I know many people in Roseburg, OR that use the radio station in the same manner, and we would really miss that positive message into our days. I believe the programming offered is beneficial, it is a station that has appropriate content for young and old. It is good for everyone to hear positive, encouraging words.
